| | |
|--|--|
| Tesla was born | the best way to conduct electricity, AC or DC. |
| Tesla had the ability to | he had a vision of harnessing the power of it. |
| When he saw Niagara Falls | in the region now known as Croatia. |
| He was so driven that | but did not pay him as he promised. |
| He drew his vision of a motor | he never took a day off. |
| He envisioned all his inventions | produces powerful electrical fields. |
| Edison hired him | within a period of two months. |
| J.P. Morgan offered \$150,000 to fund | came from God. |
| Tesla and Edison were at odds over | visualize and invent things in his mind. |
| Because Tesla was not a good businessman | people took advantage of him. |
| The Tesla Coil | the building of a transmission plant. |
| Tesla thought the gift of his mental power | in the sand with a stick. |
