

THE LONGEST GOLF BALL

Hypothesis:

All golf balls go the same distance if hit exactly the same.

Procedure:

We built an automatic, spring loaded golf club machine.

A 4 iron was used, and pulled back to full tension each time.

Five different golf balls were hit five times each.

Each distance was measured, then averaged.

Results:

The longest ball was *Slazenger*, followed by

Titlest, Precept, Top Flite and Wilson.

Conclusion:

Slazenger was longer than the others.
